

Ensuring your Cyber Awareness programme launches effectively and maintains a positive security culture

Reasons why it's ESSENTIAL to Cyber-Train your Staff ...

Why Hack when you can Con?

Social engineering is a far more efficient option for cyber criminals than attempting to hack into a well-protected corporate system.

Humans are the Weakest Link

Even with the most advanced defences, your security posture is severely weakened if just one employee can be tricked.

Anyone can be Phished

Cyber criminals troll companies for months to gather the necessary data to pull off a successful attack.

Phishing Emails can Bypass Filters

Malicious emails no longer have to contain harmful links or malware.

Harness your Human Firewall

Fully trained employees can help identify, report and stop attacks.

Create a Positive Security Culture

Promote healthy skepticism; incentivise and reward those who report suspicious activity; induct new staff as soon as they join.

How does Cyber Awareness Lite work?

Cyber Awareness Training is essential to ensure your business has the necessary security practices in place to reduce the risk of a data breach. Phishing emails are becoming unidentifiable. Equipping your employees with the knowledge to be able to identify the common threat tactics will help to prevent an attack.

We recognise the Cyber Awareness platform is vast and content-rich, requiring a significant time investment for internal teams to set up and maintain ROI. Our aim is to assist all our Customers to derive the greatest value from the platform, irrespective of how much internal resource they have available to manage it.

Our **Cyber Awareness Lite** Service combines the best of Autodata's onboarding programme, which helps to introduce a positive security culture for your users, with quarterly reviews to benchmark your progress and make any required recommendations.

Our Cyber Awareness Lite Service includes:

1. **YOUR INITIAL DISCOVERY CALL**
2. **AN INTRODUCTION TO THE "CYBER HERO LEAGUE" - OUR UNIQUE EMPLOYEE RECOGNITION PROGRAMME**
3. **ONBOARDING OF ALL USERS - VIA ACTIVE DIRECTORY OR CSV UPLOAD**
4. **FULL WHITELISTING SERVICE**
5. **PROPOSED CONTENT FOR YOUR INITIAL COMMUNICATION - INTRODUCING YOUR STAFF TO THE PROGRAMME WHILST REINFORCING THE OVERALL OBJECTIVE OF CREATING A POSITIVE SECURITY CULTURE**
6. **SECURITY AWARENESS PROFICIENCY ASSESSMENT (23 QUESTIONS) - PROVIDING AN INSIGHT INTO YOUR BASELINE SECURITY POSTURE**
