“ We have been working with Autodata for a while and they have certainly proved themselves a worthy partner. When I was looking for advice regarding the purchase of software licences, Autodata took time to properly understand our issues. After a successful trial and with favourable pricing from Microsoft, we migrated to O365 which has been extremely beneficial for our business and user base. Autodata are an excellent partner. The service they provide is of a consistently high standard, extremely professional and friendly. ”
